Orasi Consulting and Implementation Services:

Dynatrace Monitoring Made Simple

Accelerate Implementation | Drive Adoption

The growing complexities of observability can make it challenging to reap the full value of Application Performance Monitoring tools needed to meet evolving business demands. Even the most automated solutions require deployment, configuration, and implementation. The experience can be daunting for any organization looking to deploy a sophisticated APM tool.

Empower your business to confidently leverage Dynatrace's unrivaled APM solution for monitoring of clouds, containers, and microservices with the help of Orasi's experienced and certified consultants. With Dynatrace, powered by Orasi, you'll accelerate implementation, drive adoption, and speed your time-to-value – maximizing your investment in enterprise monitoring.

Orasi's highly trained, certified consultants can:

- Guide you through a complimentary trial of Dynatrace, showcasing the full value of the software.
- Install and configure Dynatrace to meet individual application needs, ensuring peak operating performance.
- Embed themselves in your team, helping train, mentor, and drive adoption of Dynatrace's APM solutions.

Health Check:

A certified Orasi resource will review extracted data and provide a summary of their findings and make recommendations to help you become more strategic with the deployment and utilization of Dynatrace.

Orasi consultants are Associate or Professional Dynatrace certified and are endorsed by Dynatrace ACE services.

SOLUTIONS

- Provide deep experience to help maximize utilization of APM tools, ensuring you get the most of your investment.

- Monitor applications, holding scrum calls and providing status reports with valuable insights and best practices for maximum effectiveness.

- Work with other groups within your organization to resolve issues impacting application efficiency.

Orasi for Dynatrace

- **Flexible Options:** Orasi's flexible services model with blended rates and engagements customizable to meet your needs gives you budget-friendly options for services, with no upfront payments required.

- **Managed Hosting:** For enterprises that do not want to manage Dynatrace or SaaS, we offer a hosting solution.

- **Launch Services:** Orasi works with you to install and configure Dynatrace to meet your needs, helping train team members and driving adoption of tools.

- **Health Check:** A certified Orasi consultant assesses the overall health of your Dynatrace deployment and provides recommendations to maximize your investment.

- **Complimentary Support Options:** For customers struggling to get value from APM, we offer free resources (for a limited time) to help your team get the most of Dynatrace's tools.

- **Augmented Staffing Capabilities:** Our hands-on expertise goes beyond traditional customer support with the option of an embedded staff resource to act as an extension of your own team.

The Orasi Difference

Orasi is a DevSecOps innovator enabling the acceleration, delivery, and adoption of software applications and cloud infrastructure through automation. Orasi's services and solutions offer full lifecycle support and integration to ensure quality, security, and scalability of transformative applications.
